

Hello, _____!

How would our neighborhood respond if a disaster were to strike--a hurricane, tornado, flood, or outage? Would we be ready, or would we see unnecessary loss?

On _____, there will be a "Neighborhood Preparedness Block Party" to help our neighborhood to customize emergency plans and create lists of resources in a fun and interactive way.

When a disaster strikes, our local emergency professionals will do their best, but, depending on the size of the event, these valuable resources can be spread thin. We hope to help create a community that is prepared to take better care of ourselves in the event of a local disaster until more help arrives.

The Block Party will be held at _____
from _____am/pm until _____am/pm.

Please see the attached flier for details.

Our community **will** be better prepared for disasters after this program. The sole purpose of this event is to provide our neighborhood with a customized plan to prepare ourselves in clear, focused way for the variety of problems they may face.

If you have any questions, please "reply" or call me. We hope to see you and any of your friends here.
